Abdullah Ismail

Full-stack developer

Al-Ula, Saudi Arabia · +966 51 004 2472 · abdullah.ismail.pro@gmail.com · github.com/som3adev-byte

SUMMARY

Full-stack developer and the only developer at a company in Al-Ula. I build and run its accounting and operations systems with Next.js, TypeScript and PostgreSQL. My accounting degree shapes how I model money, payments and audit trails.

EXPERIENCE

IT Specialist & Web Developer, Ashar Company, Al-Ula, Saudi Arabia

Jan 2025 – Present

- Sole developer of the company's internal software: an accounting system for its tourism arm and an operations system for its hotels, staff and stock.
- Own the whole chain: data model, application, exports, deployment and the people using it every day.

Freelance Wholesale Digital Products Coordinator, Self-employed

2022 – 2024

- Recorded sales, tracked invoices and followed up on payments.

Military Service, Egypt

2020 – Dec 2021

- Mandatory service.

SELECTED PROJECTS

Ashar operations system

Employer · Oct 2026 – present

- Staff, attendance, payroll, bookings, stock and invoices for a hotel and trading company. Built and tested. Preparing to replace the old system.
- Next.js 16, React 19, TypeScript, Prisma 7, PostgreSQL, Zod 4

Ashar accounting

Employer · 2026

- Replaced the spreadsheets behind a tourism company's accounts. In production and in daily use since May 2026.
- Next.js 16, TypeScript, Prisma 7, PostgreSQL (Neon), Zod, Tailwind

Mizan

Independent · 2026

- Compliance platform for the Saudi ECC-2:2024 cybersecurity controls. Feature-complete for a first release. Not yet adopted by an entity.
- Next.js 16, NestJS 12, PostgreSQL 17, Prisma 7, next-intl, Tailwind 4

Laundry pickup and delivery

Client · Oct – Nov 2026

- Dashboard, driver app and customer app for a Saudi laundry. Built. Waiting on the business for launch details.
- Next.js 16, Drizzle ORM, PostgreSQL, Expo 58, React Native, TypeScript

F6 Media

Client · Oct 2026

- Scroll-film website for a real-estate video studio. Live.
- HTML, CSS, JavaScript, Canvas, Kling (footage), Vercel

Code Cut Click

Independent · Oct 2026 – present

- Agency site for software, video and ads, three teams with three different films. Live, content in progress.
- HTML, CSS, JavaScript, Vercel

Loop

Independent · Oct 2026

- Habit tracker built with Expo, running on iOS, Android and the web. Demo app. Not in the app stores.
- Expo SDK 57, React Native, TypeScript, react-native-svg, AsyncStorage

SKILLS

Web	Next.js, React, TypeScript, Tailwind CSS
